

# I-driveMEETINGS

On-Line Meeting System

Online Meeting, Demonstration and Help Desk Solution

I-driveMEETINGS users can plan and schedule meetings, demos and support sessions quickly and easily. Full functions include remote desktop tools (temporary and permanent options), file sharing and transfers, chat, switch control, whiteboard, recording capabilities, web camera, town hall meetings, VoIP system, scripting, and advanced survey tools and much more.

Our leading edge technology enables trainers, teachers, co-workers, customers, and prospects to view any application running on your PC or Mac in real time. With the flexibility to choose to meet in person or online, you will be able to do more and travel less, saving you time and money. Holding meetings online is rapidly becoming the most effective, convenient, and affordable way to do business.

Telecorp provides full-featured and flexible web conferencing software, telephony tools, recording capabilities, video chat and webinar software. Participants can communicate by voice, instant messaging, chat and see each other by video. Participants can talk and hear one another by using standard microphones and headsets. I-driveMEETINGS also offers support tools which was developed primarily for companies or individuals that require access to specific computers for a short or long term period. You can initiate a one-time connection or access a long-term connection successfully with Telecorp's software solution. Users also receive a powerful ticketing, tracking, reporting and billing system which ensures your goals are met.

Virtual meetings are highly secure and easy to use. With Telecorp's advanced features, productivity will be ensured with our amazing follow-up tools that will ensure your success. I-driveMEETINGS will not forget and be consistent as it forces communication over the life of any campaign with that client, which will translate into sales and client satisfaction.
